

## **Postsecondary Entrance Levels for English and General Education Credit**

All universities require for admission the Pre-College Curriculum (PCC), which includes:

English ----- 4 units (years)

Math ----- 3 units (Algebra I and II, and Geometry)

Science ----- 2 units (Biology, and either Chemistry or Physics) (3 in 2002)

Social Studies -- 2 units (World Civilization and US History) (3 in 2002)

Postsecondary remedial courses count for semester time (for financial aid purposes) but not for degree credit.

During the 1999-2000 academic year, 1,405 of 12,690 first-time freshmen (11 percent) who had completed the PCC were enrolled in a remedial English course at a four-year public university in Kentucky. 1,178 first-time freshmen (9 percent) were enrolled in a remedial reading course. At Lexington Community College, three of 20 first-time freshmen were enrolled in remedial English, and one of 20 first-time freshmen were enrolled in remedial reading. KCTCS institutions are not required to report on remedial placement.
